PROFESSIONAL AND PERSONAL SKILLS DEMONSTRATED

[Web Sketch Uz](#)

January 2017 - June 2018

Web studio with 5+ employees developing a modern and supported web site for small organizations.

Front-end developer

Developing a responsive and cross-browser web UI. Communicating with clients and receiving projects.

• **Responsive and Cross-browser design:** Working at Web Sketch Uz I develop a fully responsive and cross-browser web UI for web app and web sites.

E.g. Successfully developed 15+ web projects.

• **Responsibility in everything and everywhere:** I was trusted projects that hard to me and sometime tasks in back-end side while I work as front-end developer. But the all time I justified their hope. E.g.

• **Great communication:** When I worked there I communicate with clients directly. I communicated with different people who don't even know what programming is and I explained them everything they need quickly and easily. After that with great pleasure trusted us with their projects .

E.g. Successful attracted of 10+ clients and developmented of their projects.

RELEVANT PROJECTS

[Natours](#): A fully responsive and cross-browser static web site, built with pure HTML and CSS that allows many browsers to work with it well. In the site was built very modern and beautiful design features. (2018)

[Kinopoisk](#) : This telegram messenger bot was written on Node.js and used MongoDB for database. This bot can find for you movies and cinemas that you like and save it in its bookmark. (2018)
